COACHING FOR AFTERSCHOOL EDUCATORS

NATIONALLY ACCLAIMED LIVE VIRTUAL COACHING PROGRAM

ACRES is a coaching program that builds knowledge and skills so afterschool educators, librarians and anyone who works with youth in out-of-school settings can confidently facilitate Science, Technology, Engineering, and Math (STEM) experiences for youth. Participating in the ACRES series will help afterschool educators build facilitation skills and confidence in STEM. Educators who participate in the program will:

- Gain exposure to current research surrounding STEM education for youth.
- Access new ways of interacting with youth and other ways to teach STEM skills.
- Develop mastery in using technology for learning new skills.
- Build relationships with peers who are doing similar work.
- Experience personalized professional development to deepen skills.
- Earn contact hours and a certificate of participation.
